Chime 2025 GHG Emissions Disclosure

This report includes Chime Financial, Inc.'s greenhouse gas (GHG) emissions disclosures for compliance with California Senate Bill 253, the Climate Corporate Data Accountability Act.[1] To measure our GHG emissions, we follow the recommendations of the GHG Protocol. Given 2024 marked Chime's baseline year for environmental and emissions reporting, this report includes data from only 2024 and 2025. Emissions data for prior years were not comprehensively tracked or reported on a company-wide basis.

For more information on Chime's Stakeholder Impact program, including further details on our environmental and emissions footprint, please refer to Chime's 2024 Stakeholder Impact Report.
